

Neurology Procedural Supervision

2005

<u>Clinical Activity</u>	<u>Resident Level *</u>	<u>Method of Instruction</u>	<u>Level of Instructor *</u>	<u>Level of Supervision</u>	<u>Requirements for Certification to Perform Without Direct Supervision</u>	<u>Method of Confirming Certification of Resident to Perform Procedure without Direct Supervision</u>
Neurology PG2						
All privileges of an Int Med PGY1 Grad to include lumbar puncture	PG2+	Direct clinical instruction	PG2+	NA	After successful completion of Int Med PGY1 year	PGY level
Perform and supervise neurology H & P	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Order Neurodiagnostic tests to include: Neuroimaging	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
EMG/NCS						
EEG / video EEG monitoring						
Management of neurological problems Inpatient and outpatient	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Appropriate consultation of other service:	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Supervise lumbar puncture including: High volume tap	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Assessment for xanthochromia						
Perform and supervise: Occipital nerve injections	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Trigger point injections						
Tensilon Test	PG2+	Direct clinical instruction	PG3+	NA	At the beginning of PGY2 after initial instruction	PGY level
Neurology PG3						
All privileges of a Neurology PG2	PG3+	Direct clinical instruction	PG4+	NA	At the beginning of PGY3	PGY level
Basic EMG/NCS studies	PG3+	Direct clinical instruction	PG4+	NA	After 2 months of EMG training at staff discretion	PGY level
Basic EEG interpretation	PG3+	Direct clinical instruction	PG4+	NA	After 2 months of EEG training at staff discretion	PGY level
Adjustment of vagal nerve stimulator	PG3+	Direct clinical instruction	PG4+	NA	Program Certification - training from epileptologist	PGY level
Neurology PG4						
All privileges of a Neurology PG3	PG4+	Direct clinical instruction	Staff	NA	At the beginning of PGY4	PGY level
Back up supervision of PG2s and PG3s	PG4+	Direct clinical instruction	Staff	NA	At the beginning of PGY4	PGY level
Botulinum toxin injections	PG4+	Direct clinical instruction	Staff	NA	Program Certification - training from Staff	PGY level
Muscle or nerve biopsy	PG4+	Direct clinical instruction	Staff	NA	Program Certification - training from Staff	PGY level
Intraoperative monitoring	PG4+	Direct clinical instruction	Staff	NA	Program Certification - training from Staff	PGY level

* PG2+ is Postgraduate Year 2 Neurology Resident or above, PG3+ is Postgraduate Year 3 Neurology Resident or above, PG4+ is Postgraduate Year 4 Neurology Resident or above
